Summary

Junior Data Scientist specializing in Machine Learning. Well-versed in numerous programming languages including Python, R and MySQL. Strong academic background in project management, Finance, Math, Statistics And Machine Learning.

Education

Bar Ilan Universiry | 2013 - 2015
BA - Logistics and Economics

Bar Ilan University | 2018 - 2020
MSc – Financial mathematics
Relevant course work – Mathematical Finance, Statistics for Data Analysis, Python Programming, Numeric Analysis For Scientific Computing.

Technion |2020 - 2021
Certified Data Science with a specialization in Deep learning and Machine learning program.
Relevant course work – Linear Algebra, Statistics, R For DataScience, python ,Machine Learning, Deep Learning.

Experience

IDF Officer, Public transportation integrator - 07/2018 to 12/2021
IDF Technological and Logistics Directorate, Transportation Center
- ☒ Managed the integration of long-term projects between the Ministry of Defense and the Ministry of Transportation, including accessibility for IDF Soldiers on public transportation.
- ☒ Supervised IDF soldier's monthly payments to public transportations using IDF's Transportation data cloud. Developed a system that simplified the data analysis, and data correction resulting in **250,000** NIS savings annually.
- ☒ Developed a system to manage IDF's Arava Tickets (Tickets for Public Transportation in the Eilat area) Inventory and purchase. The system enabled in purchase of **150,000** NIS annually.
- ☒ Managed Access rights and security policies on the IDF transportation system and enabled digitization of user's access rights.

Languages

Hebrew - native language.
English – fluent

Certifications & Skills

certificates: ⚙ **Kaggle Notebook Master, DataScience365 online program.**

Skills: **Python, NumPy, Pandas, Scikit-Learn, Plotly, Cufflinks, Pytorch, R, SQL, MySQL**.
